

Lab 4: Configuring Collections: Snapshots

Course material prepared by

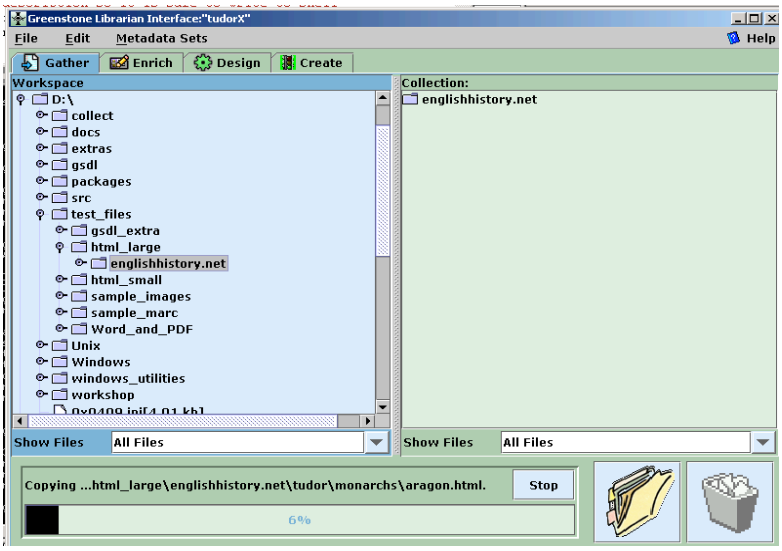

Greenstone Digital Library Project
University of Waikato, New Zealand

and National Centre for Science Information,
Indian Institute of Science, Bangalore

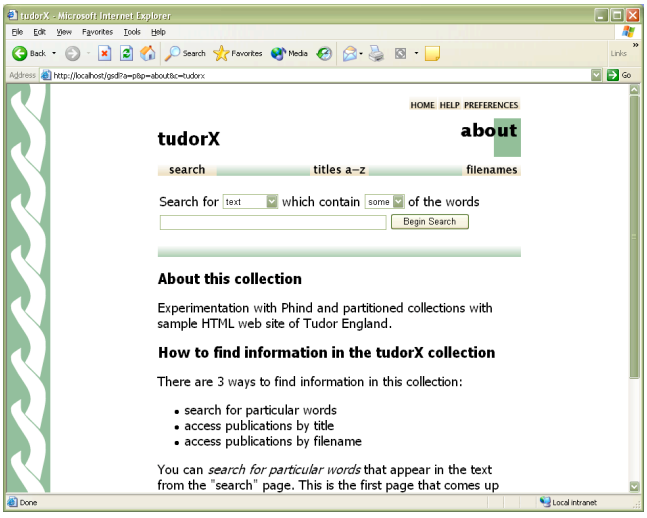

Working with full-text data

New collection to explore additional features of Greenstone

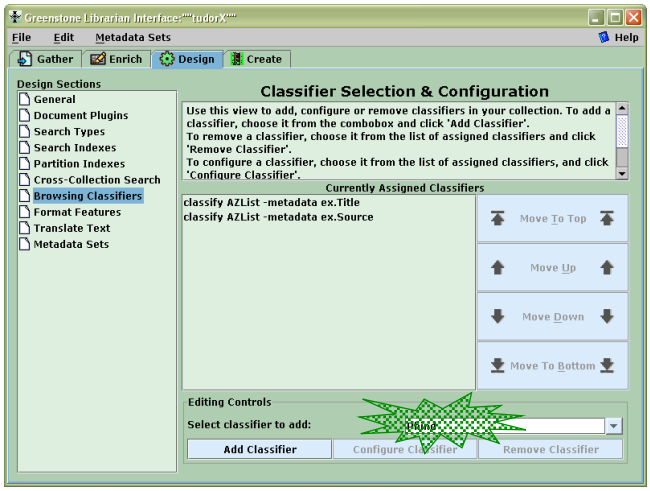

Building basic collection based on large_html sample files

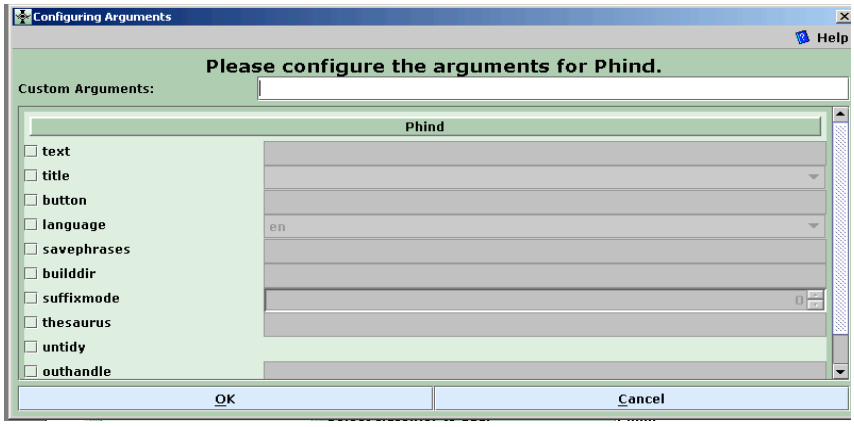

The basic collection

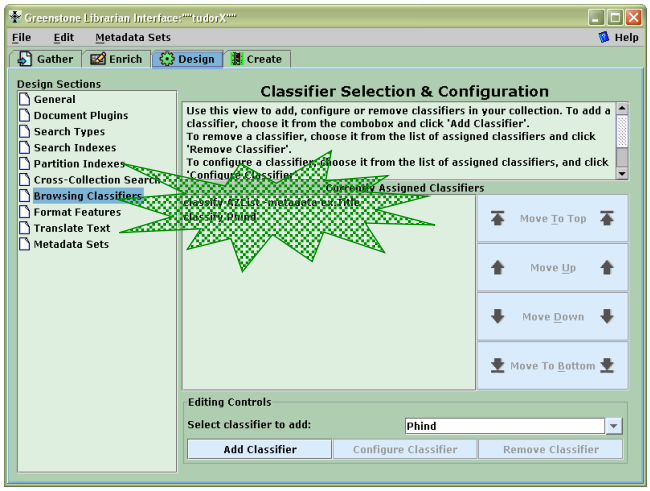

Adding extra features

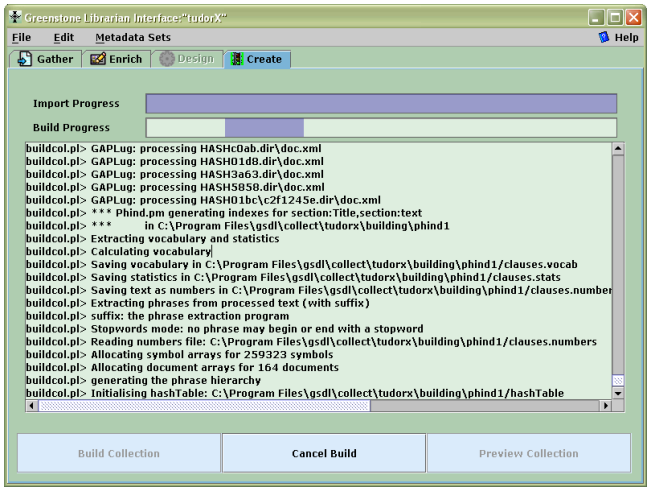

Adding a Phind classifier

Phind classifier configuration popup

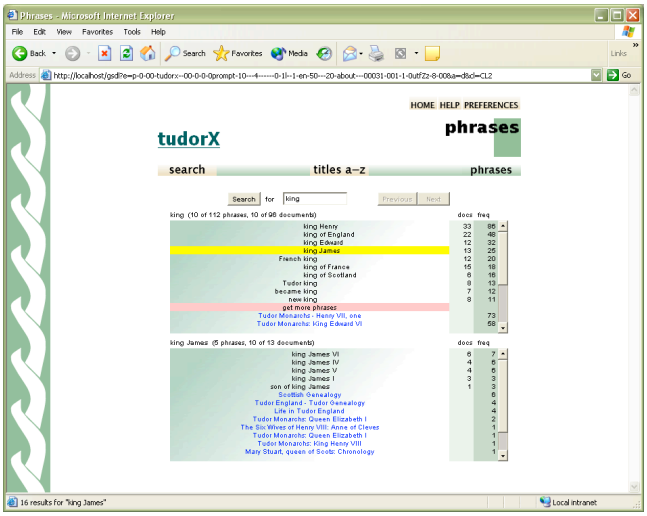

The refined browsing classifiers

Some of the building instructions generated during Phind classification

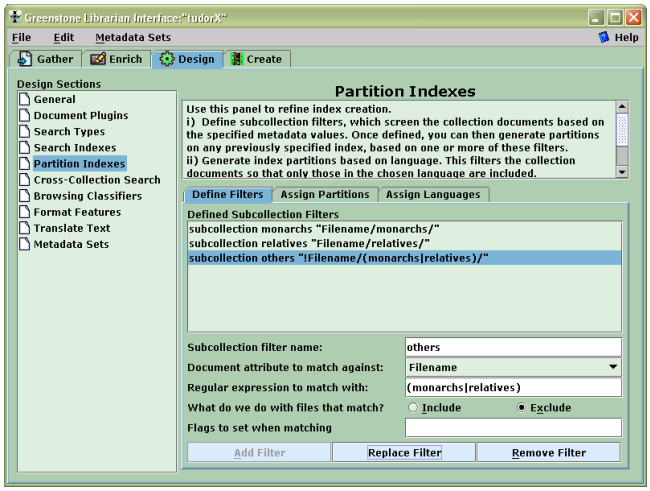

"About this collection" page with Phind-based phrases in navigation bar

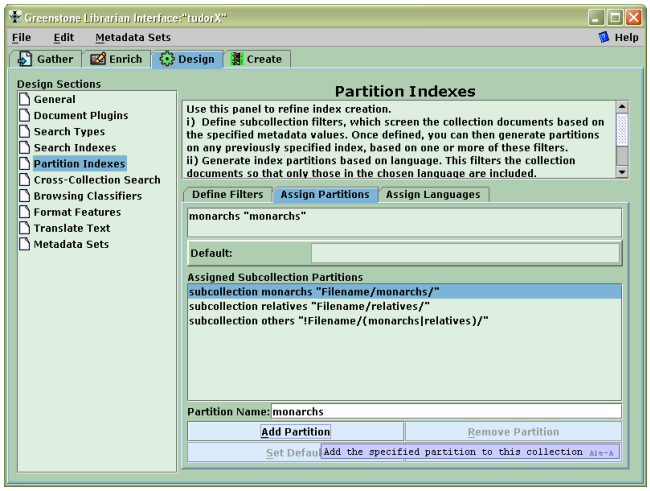

Interacting with Phind

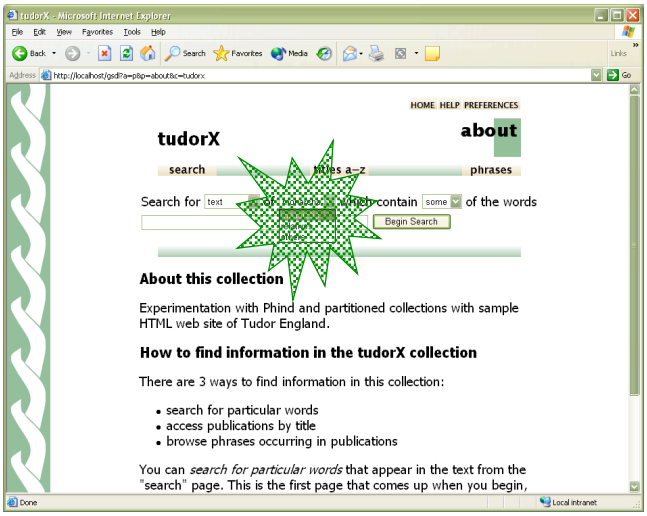

Partitioning search indexes

Defining three filters for partitioning

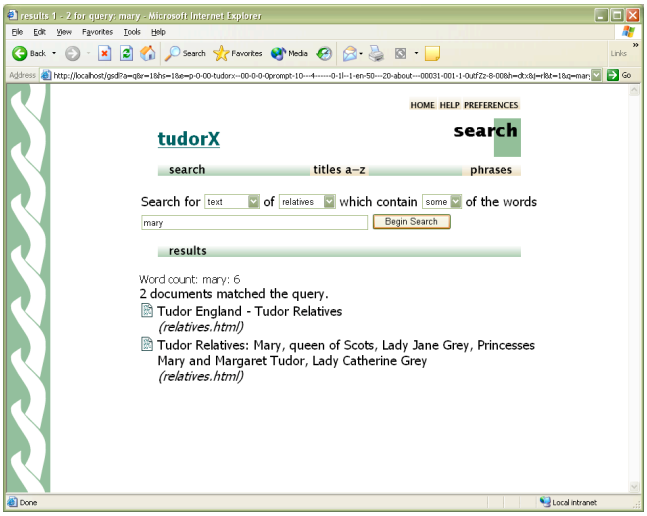

Assigning partition names

Collection with partitioned index

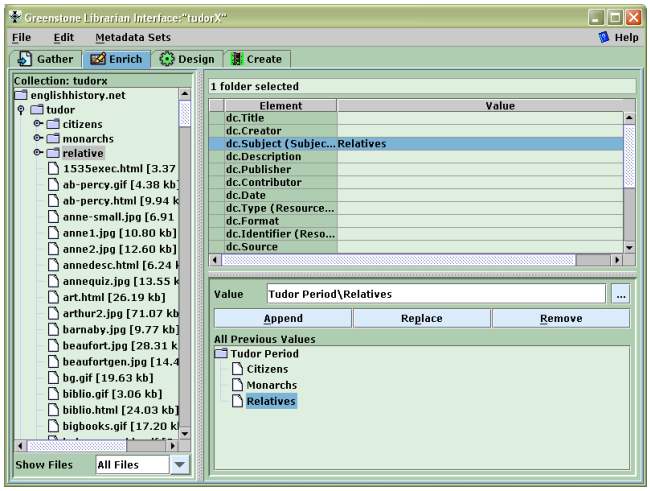

Search *relatives* partition for 'mary'

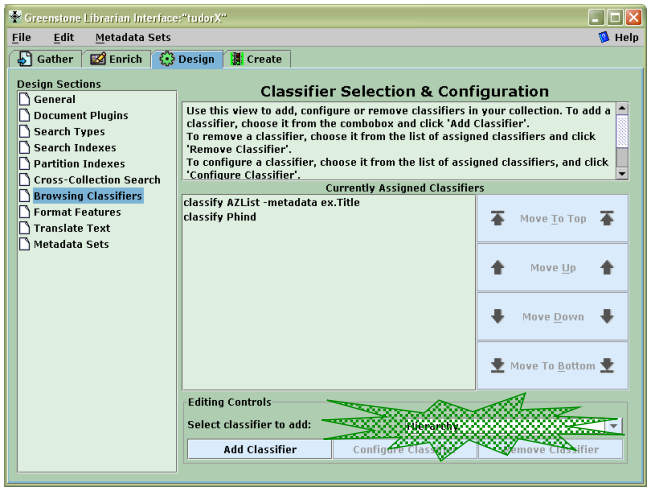

Search result for *relatives* partition

Adding hierarchical metadata

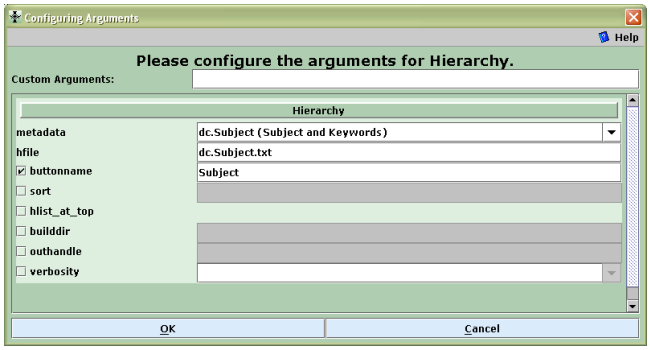

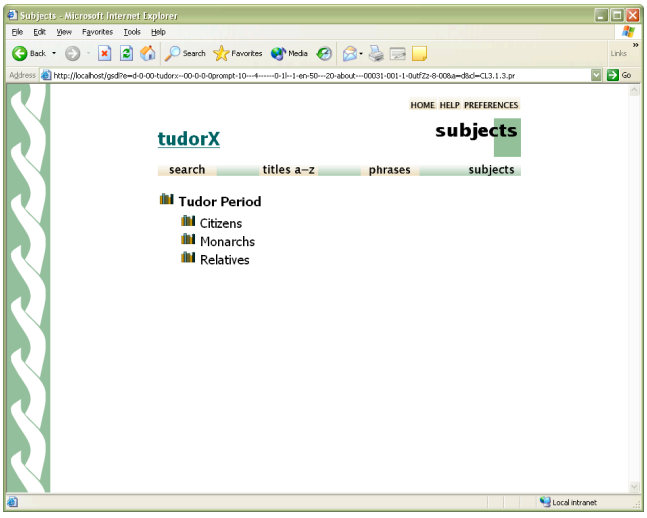

Metadata applies to all documents in folder

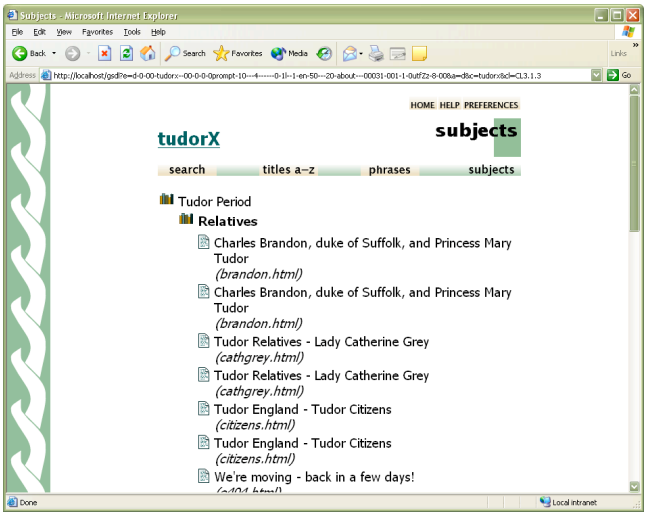

Choosing the Hierarchy classifier

Filling out *hfile* and *buttonname* fields

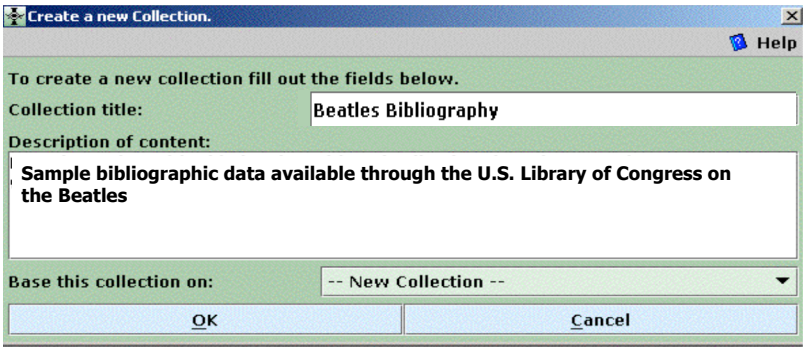

Browsing the manually assigned hierarchy

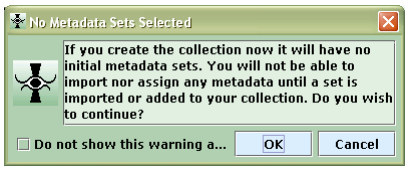

Browsing the manually assigned hierarchy

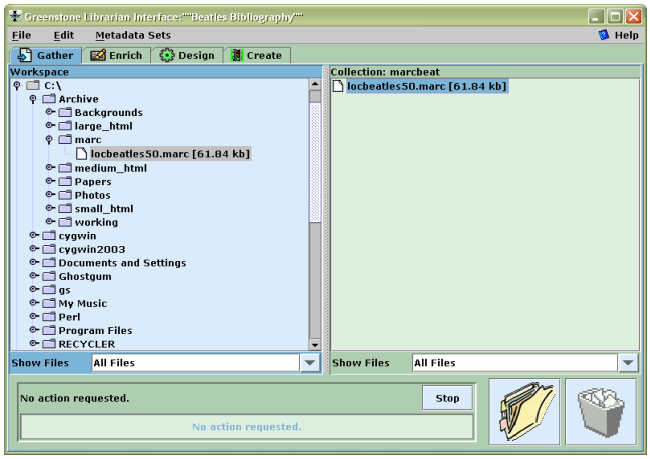

Working with bibliographic data

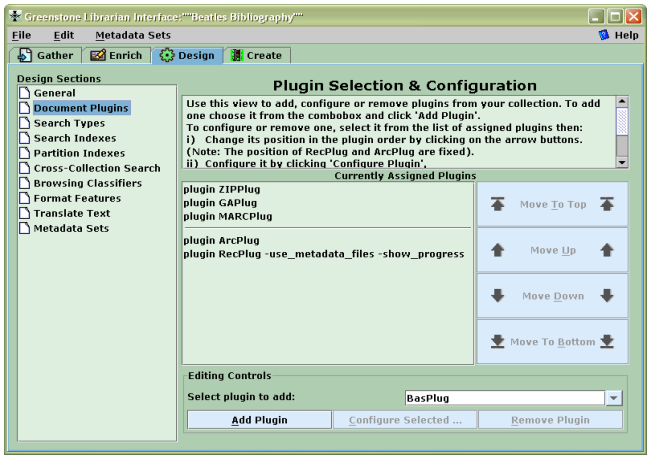

Starting a new collection based on MARC records

It's OK to have no initial metadata sets

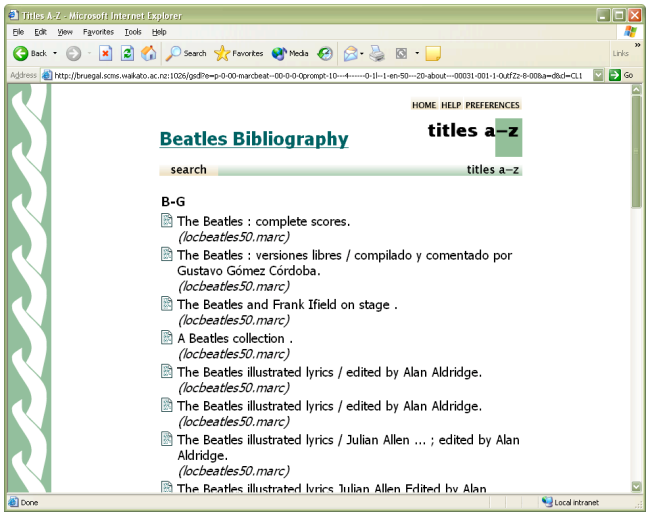

Sample MARC dataset copied into collection

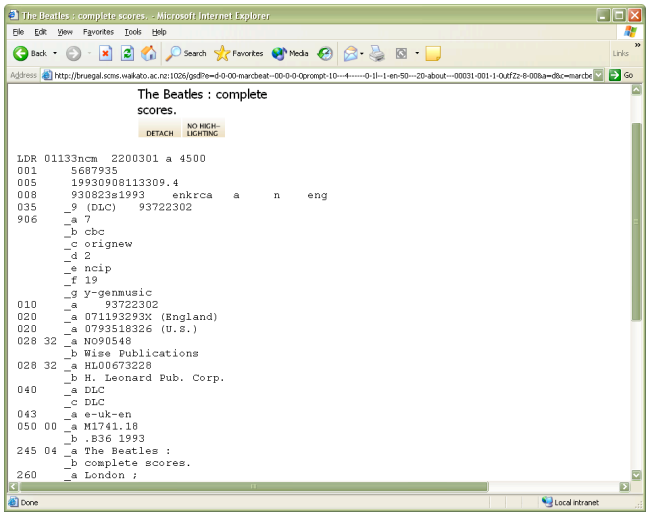

Cull extraneous plugins and add MARCPlug

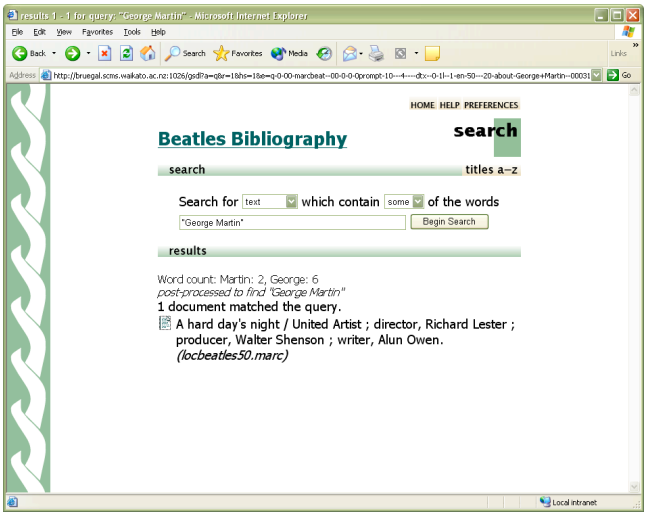

Default look of MARC-based collection

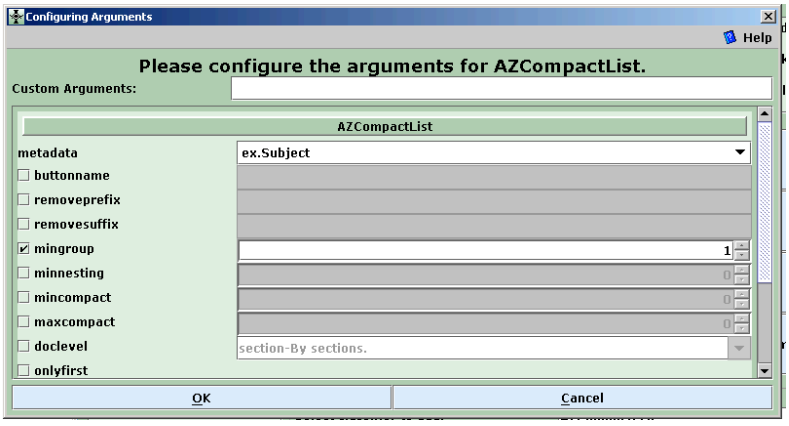

Default *titles a-z* for MARC collection

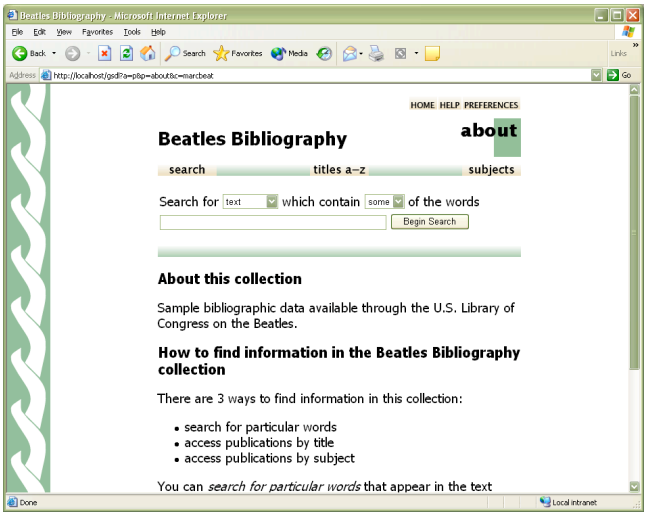

Document display in MARC format

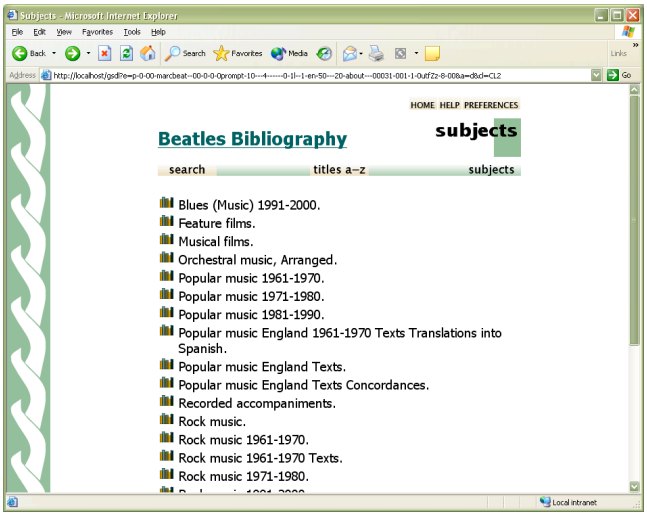

Finding George Martin

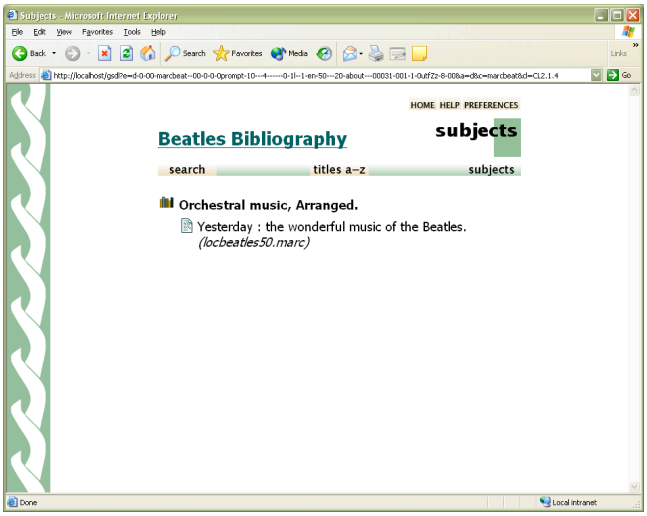

Setting *AZCompactList* options for *Subject* metadata

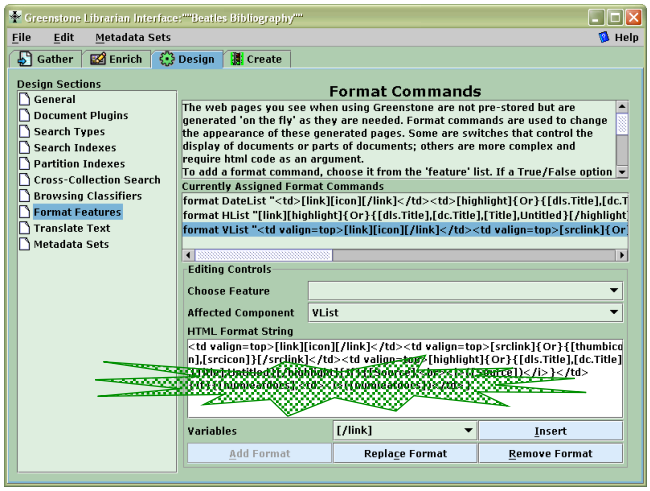

subject button now appears in navigation bar

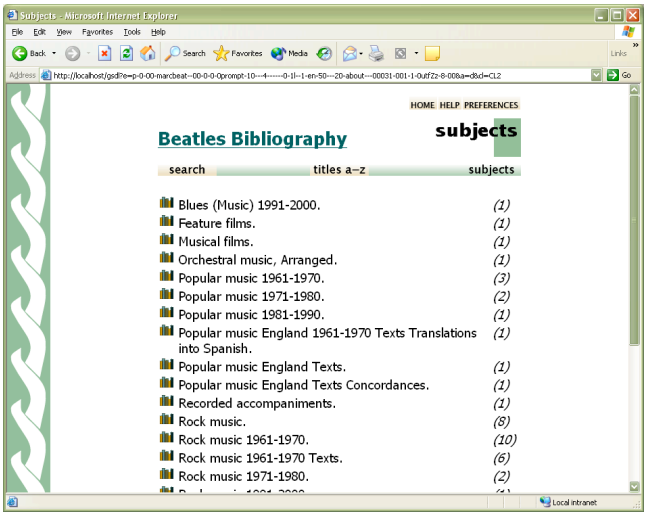

Top level of the _subject_ hierarchy

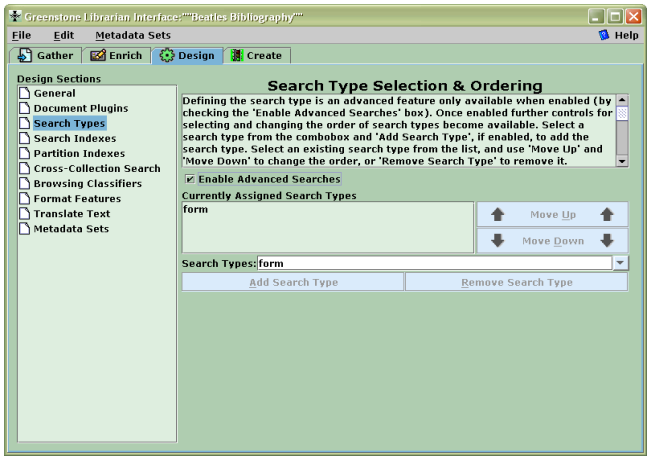

Opening 'Orchestral Music, Arranged' in *subject* hierarchy

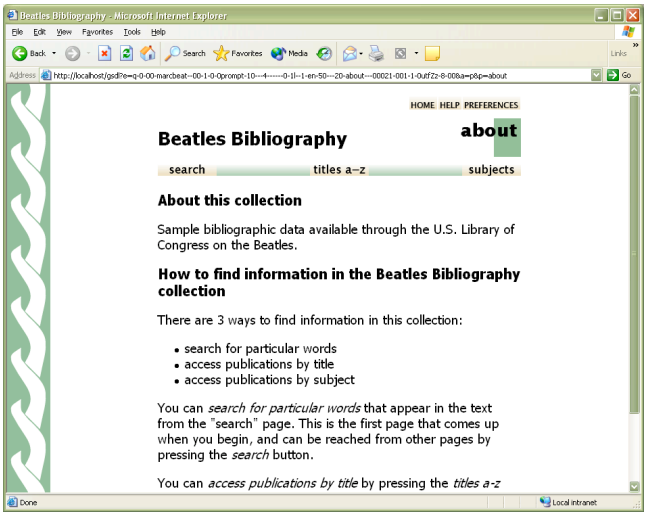

Extending format statement to include number of entries with bookshelves

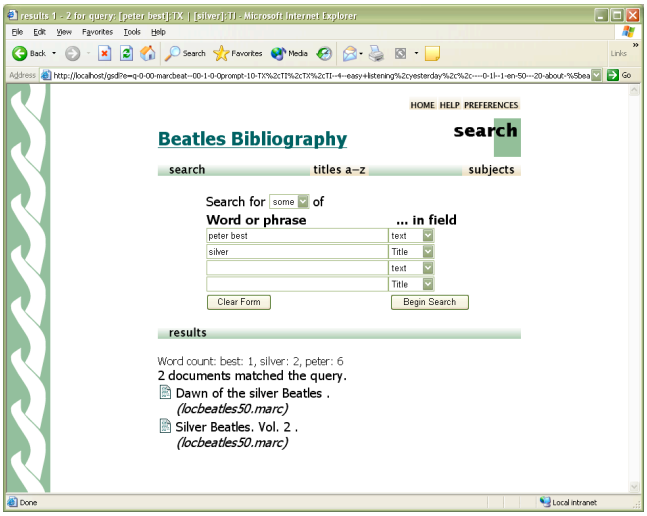

Enhanced format statement for *subject* classifier

Switching on 'form' search type to support fielded queries

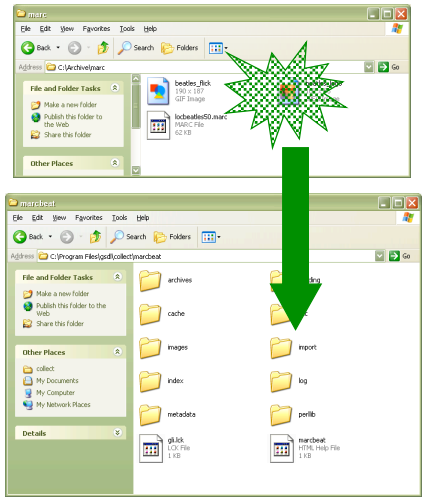

Collection home page with form searching switched on

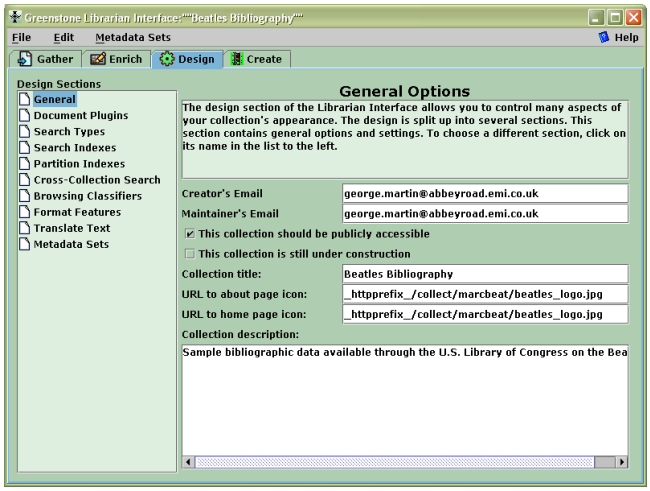

Querying for text including ‘peter best’ and title including ‘silver’

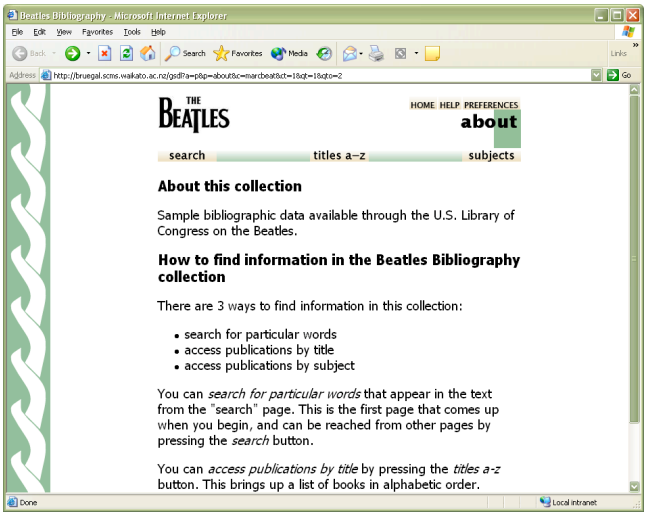

Brand collection with an image

Copying logo to Beatles collection

Adding image to the collection

Collection home page with image
